Strategy 2023-2025

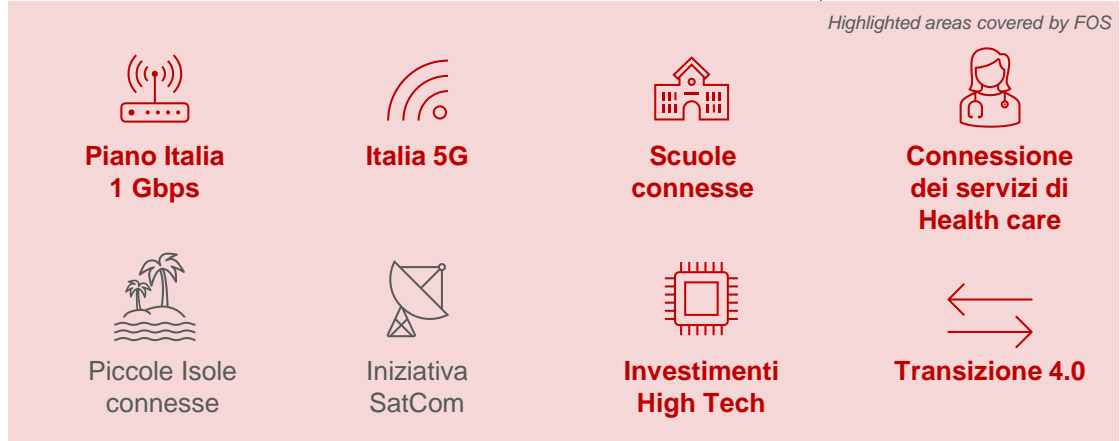

The strategy focuses on the integration of two guidelines that guarantee both **sustainable growth** and **"disruptive" growth** with products/services with a high potential for "capitalization"

To pursue these strategic objectives, FOS implements an action plan based on:

By 2025 the IT market¹ in Italy will increase by 30% reaching €120 billion total value

PNRR allocates 27,4 €/bn
to “Digitalization and innovation” mission

By 2025 Digital Market² in Italy will increase with a CAGR of 5%

By 2025 Digital Enabler Market³ in Italy will increase with a CAGR of 14%

Digital: Business Case

INFORMATION TECHNOLOGY

Sanisoft is a product designed and manufactured internally by FOS that **allows to support all the operational processes of the administrative management of a Supplementary Health Fund**.

The main features of **Sanisoft** are:

- **Web application** usable through browser
- The use of the product can take place in **SaaS mode** or installed at the customer
- Customizable and parameterized application
- **Integrated management of databases** on holdings, beneficiaries, family members and payments
- Automatic generation of lists with the right to export
- **Additional module** for direct handling refunds
- **Managing different** user profiles

DIGITAL LEARNING

We supported our client **LEONARDO** Customer **Support Services and Training** through the process of **provide digital training to internal staff and foreign customers** of company milestone aircraft C-27J.

A **one-year long project** that saw us involved in the design and development of **all multilingual multimedia content**:

- **E-learning courses**
- **Test and evaluations**
- **Training video tutorial and lessons**
- **Subtitled video language versions**
- **Webinar presentations materials**

The training covers and deepens all the skills needed by maintenance personnel dedicated to what is widely recognized as the most effective multi-role military transport aircraft in its size class

DATA CENTER

We supported our customer **ESSELUNGA** through the process of consulting, maintaining and installing for data cabling fit out in **the Headquarter, Stores and Warehouses**.

A **5-year long project** that involved us in different sites in Lombardia, Veneto, Trentino Alto Adige, Friuli and Emilia Romagna for:

- **Professional Services**
- **Installation**
- **Maintenance**
- **Technical Assistance**
- **Move, Add and Change Services**
- **Rollout Services**

Since 2019 10 technical engineers work every day in Esselunga sites to support and solve every customer request

Engineering: projects generation

PROTOTYPING AND INDUSTRIALIZATION OF NEW PRODUCTS

The Group responds to **industrial needs** coming from a client that requires a **support in developing innovative products** or solutions.

PUBLIC CALLS FOR TENDERS

The Group exploits the **collaboration with Italian universities and/or public-government research organizations** through the creation and activation of joint laboratories or research centers, to implement a long-term cooperation scheme developing **projects co-funded by public actors**.

Case study

EyeTrap

An innovative system of pheromone and chromotropic traps for the intelligent and timely control and monitoring of the phytosanitary fight against native and/or alien pest populations.

This iot system (Internet of Things), developed in the laboratories of the Fos Group, is non-invasive and can be fully integrated with the normal monitoring activities used in the fields.

Aura

Innovative project in collaboration with University of Napoli and Euphorbia to develop a **new generation of Smart& Green urban furniture**.

These new components will host plants selected according to their capability to absorb pollutants, and IoT sensors for monitoring.

Components of the system have been filed for patent application and a newco is in phase of constitution.

Microcosmo

Innovative project developed in partnership with ENEA and *Beghelli*. Microcosmo is a European Patent owned jointly by ENEA and FOS.

The System allows to **study the growth of plants under variable experimental conditions**.

Microcosmo is active in various Research Laboratories in Italy for scientific purposes.

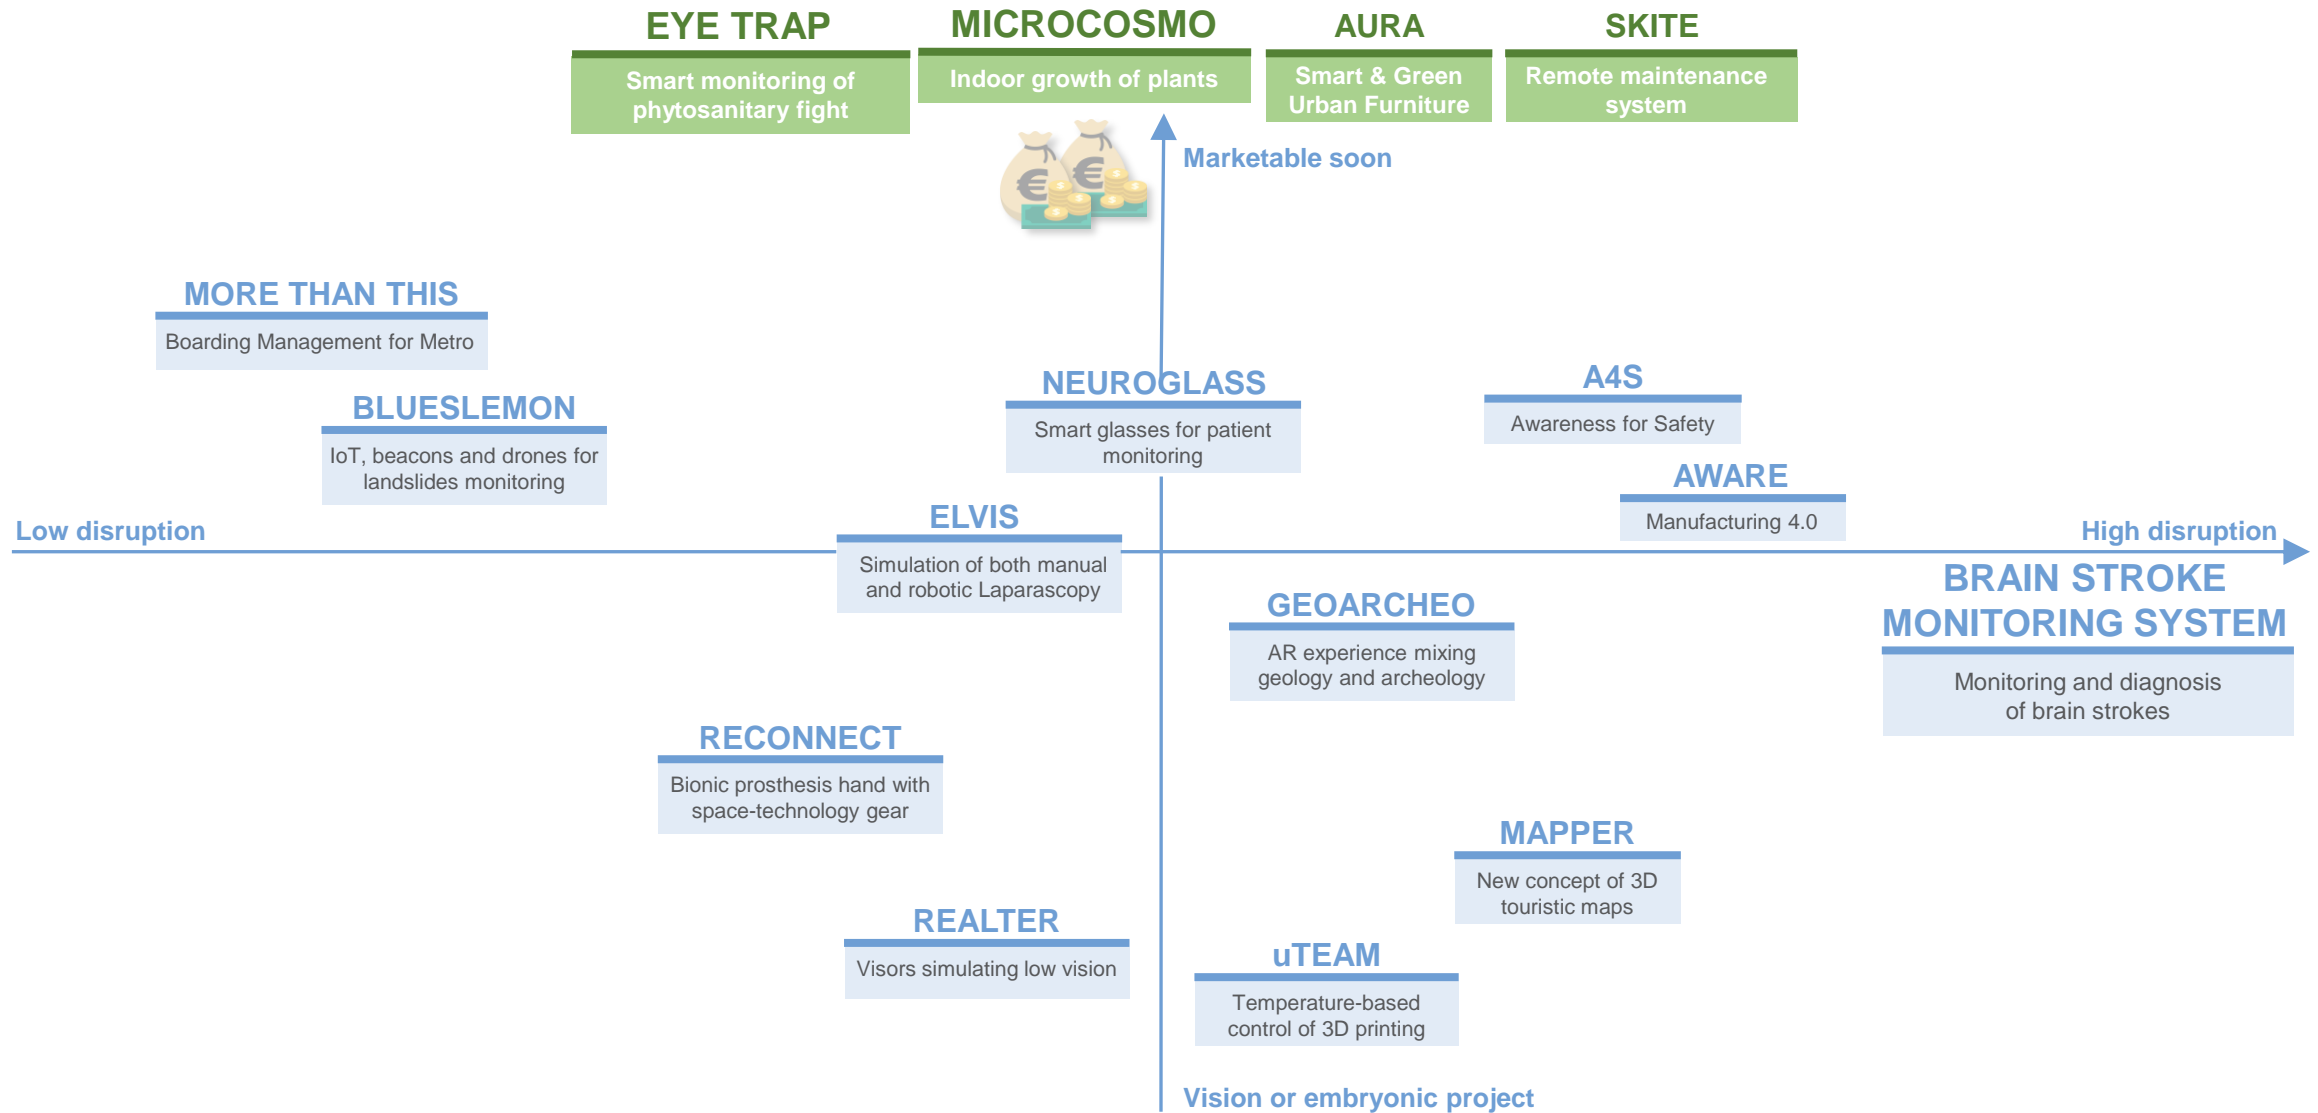

Skite

SKITE™ is an **advanced remote maintenance system**, which captures images from the field thanks to sensors with visual recognition, integrable with Hands-Free vision devices for remote operator which is useful during technical assistance activities.

The system integrates an innovative **specialized tool** that is able to inspect even the most difficult parts to reach.

projects

R&D projects to preserve the environment

FOS invests talents and economic resources to size market opportunities that include solutions to maintain, improve and solve environmental topics. Few examples: **"BOE"** to monitor **the quality of sea water**; **"Blueslemon"** to **detect and prevent landslides** near Bozen.

+12k
repairs

"Refit center" helps the environment

Thanks to its ability to **repair more than 12.000 components per year**, the Refit center avoid these boards to be trash and replaced by new ones being an active player in the **circular economy**.

Targets

Develop solutions to reduce the digital impacts on the environment

FOS is supporting a doctoral scholarship to investigate the magnitude of the digital sector on the environment and to find solutions to reduce these impacts.

Employees education

The Group is focused on developing new ways to improve its employees' awareness on ESG topics especially related to the impact of digital industry on the environment.

Careful selection of suppliers

FOS keep high attention to its supply chain requiring strict protocols to be adopted by its suppliers.

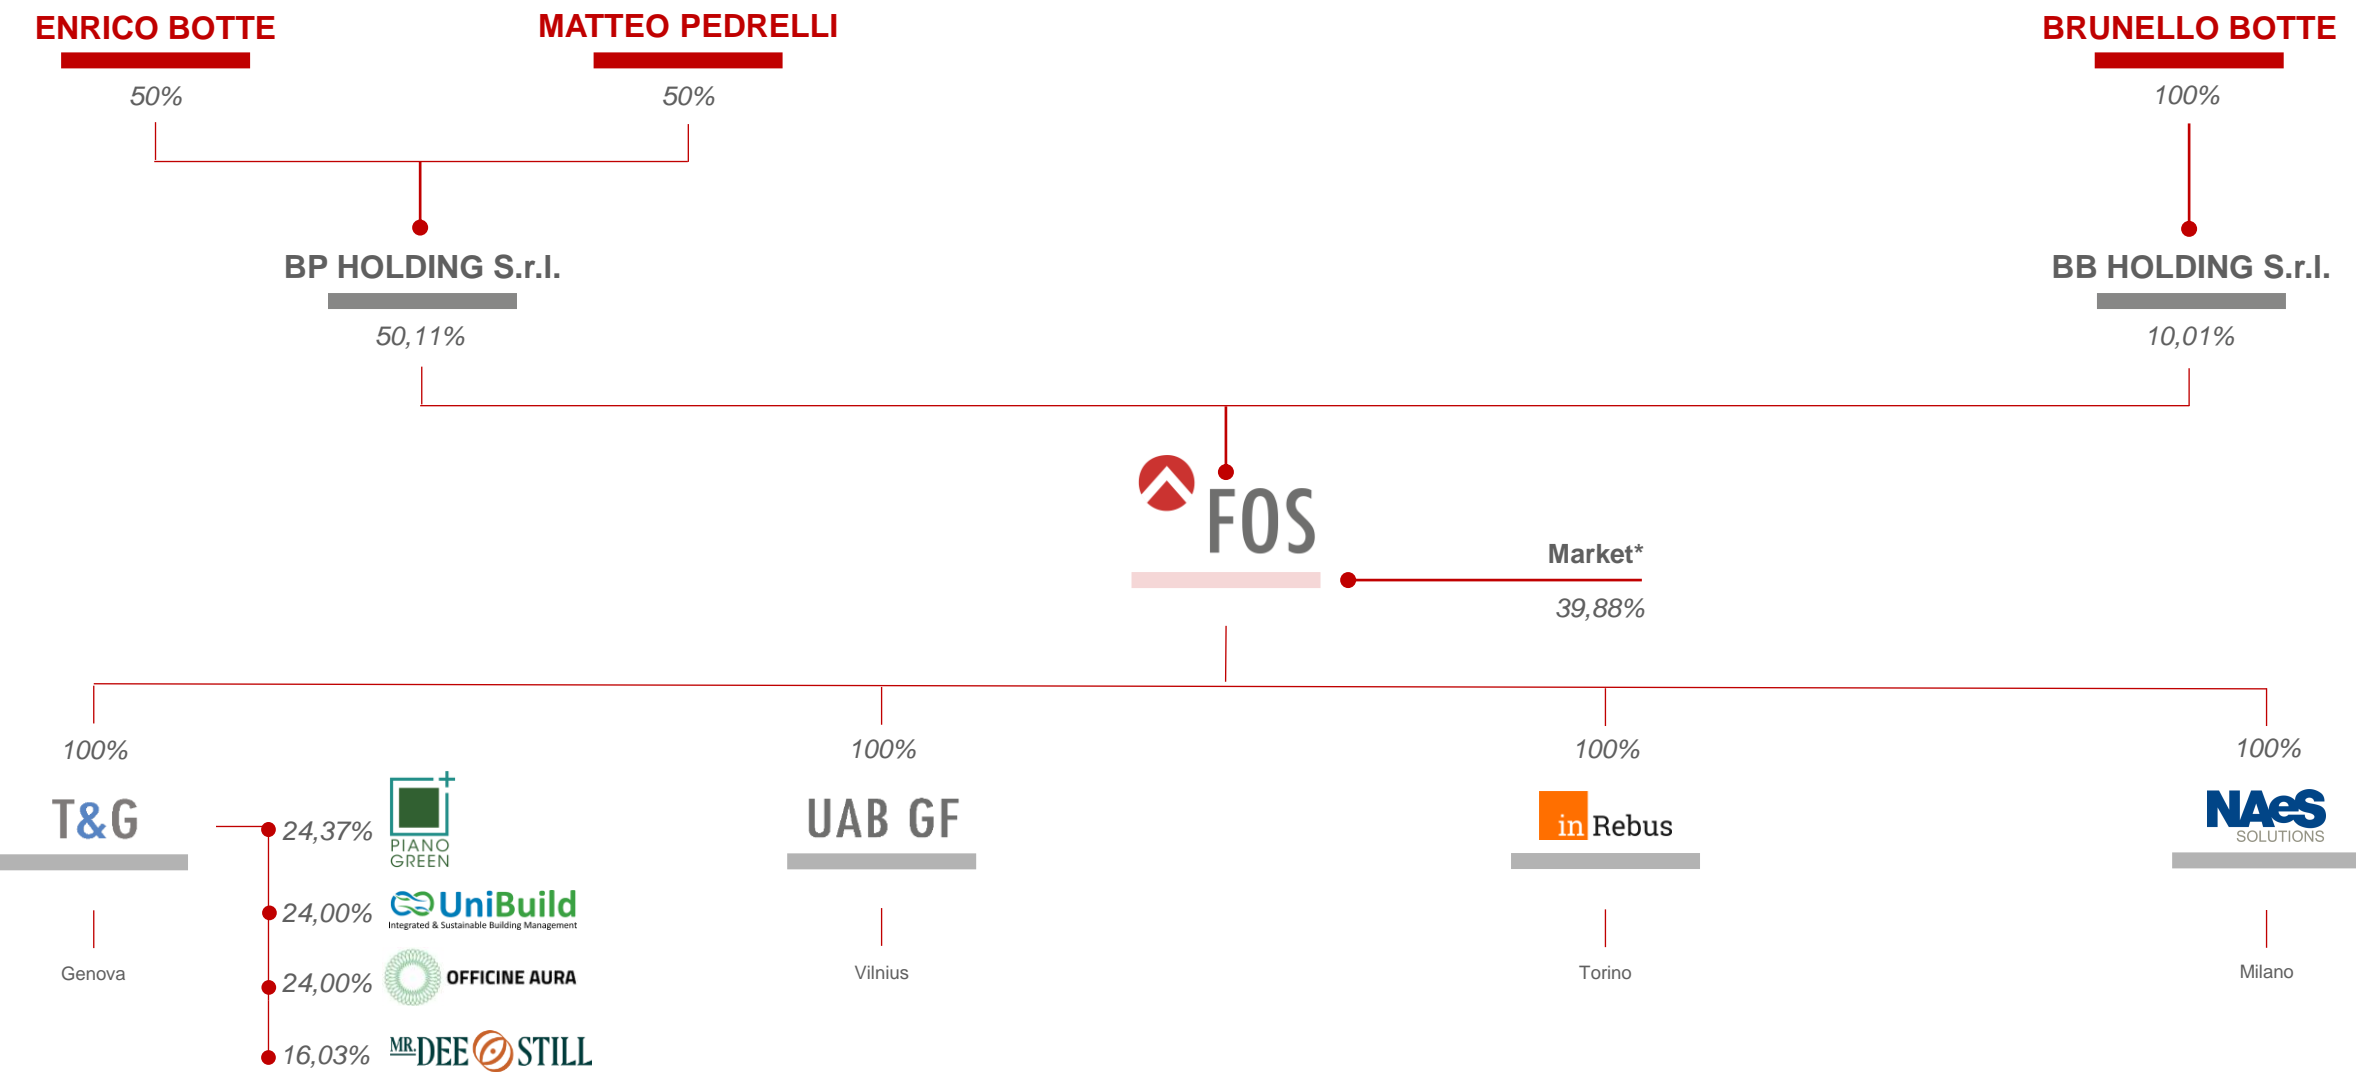

Strong constructive relationships with territories

Through its R&D center the Group keeps working alongside with local authorities (i.e. Regione Liguria and Regione Campania) to develop new marketable solutions that respond to territorial priorities in fields such as marine technology, safety and quality of inland life, health and life sciences, biotechnology and agri-food, cultural heritage.
